2011-2012 Continuing Education Series

Friday, January 20, 2012

"Infection Control"

Tracy Wale, RN

In cooperation with INFECTION CONTROL SOLUTIONS

Friday, January 20, 2012

This Seminar is Recommended for Dentists, Hygienists and Office Staff

Regardless of where you live or practice, it seems that not a quarter passes without some headline news story of cross contamination and resultant exposure of countless patients to bloodborne diseases and the general public's sense of calamity that ensues. Chances are that you feel that your background did not prepare you adequately for your role as expert within your organization on sterilization practices. *4 CEU's*

Course Objectives Include:

- Training for all staff assigned to reprocess semicritical and critical medical/surgical instruments.
- Management of Sterilization Protocols and Infection Control Practices that meet or exceed regulations as set by the NSBDE.
- Avoiding the pitfalls and hazards commonly associated with incorrect sterilization practices.
- Identification of single use only items commonly reprocessed.

About the Speaker:

Tracy Wale, has been a Registered Nurse for over 20 years with a strong background in healthcare compliance, licensure and certification. As an adjunct to her nursing career, Tracy started this company when called upon by a friend in private practice, to develop his OSHA compliance programs and infection control protocols. A need was identified in private practice, and Compliance Alliance was born -- the goal: help others find an easier means to becoming compliant with all of the regulations that face healthcare. Again, in 2011 she founded Infection Control Solutions to meet the needs of providers impacted by new Infection Control Legislation.

Located at the Gold Coast Hotel: 4000 West Flamingo Rd. Las Vegas, NV

Registration Opens Friday, January 20, 2012 at 7:30 am
